## What Every Woman Wants: great legs, more energy, and peace of mind

Feeling frumpy, frazzled, and fatigued? It’s no wonder! The average woman is working full time both at work *and* at home. Finding the energy to “have it all” is a constant challenge. This fun, funny, and motivational program will make your attendees feel more relaxed, more in control, and ready to make some simple “no big deal” changes that will make a big difference in their lives.

**Perfect Keynote for Your Women’s Event**

### Afterwards, attendees will have:

- Practical strategies to feel more energized throughout the day
- Coping mechanisms to deal with the aggravating “little things” that cause so much of our mental and physical distress
- Tools for being more productive at work while still having the energy to enjoy your life when you get home.

### About Dr. Jo®

Now a grandma of seven, Dr. Jo®, knows what it’s like to juggle work and home responsibilities, plus chisel out “me-time”. And, she’s here to offer hope, humor, and real-life strategies. Jo’s presented more than 1000 programs to conferences and companies, and is the proud recipient of the CSP (Certified Speaking Professional) designation.

Jo attempts to live a peaceful, stress-free life in sunny, warm Florida with her husband, John – and kids and grandkids nearby.

But stress still comes her way. She can’t seem to outrun her perfectionistic, type A personality, nor the lingering effects of growing up in a single bathroom house in a family of nine kids. Tap dancing and chocolate help (not at the same time)!
